Best Beef Product:

8oz County Select
Dry Aged Rib Eye Steak

In April 2024, we made a significant investment in our business with the installation of our own state-of-the-art dry-aging room. Equipped with the latest technology, it allows us to carefully monitor and control every stage of the aging process, ensuring consistency, quality and exceptional flavour.

During the 35-day maturation process, moisture is slowly drawn from the meat, naturally concentrating its flavour and developing a rich, intense character with an exceptionally tender, buttery texture.

Once fully matured, the meat is carefully transferred to our experienced butchers, who expertly trim and cut each piece to the required specification.

What began with our premium dry-aged beef has since expanded to include dry-aged pork, giving our customers even greater choice.

Our commitment to quality has also been recognised at this year's Meat Management Awards, where we were proud to be finalists for our dry-aged rib eye steak.
